

# Advanced Daily Formula

## Testimonial:

I have been taking the Advanced Daily formula for two months and I have found that my skin is much softer and smoother. Also, my skin looks more toned and the fine lines around my eyes and on my forehead have reduced.

I have noticed other health benefits from taking GliSODin Skin Nutrients: I have had no symptoms of my colitis since I have started the product and I am more energetic; I was also diagnosed with glaucoma prior to taking the Advanced Daily Formula and I recently had a check up after taking the formula for 2 months and was presently surprised to find out that my eye pressure had dropped 8% giving me a normal reading!

I am very happy with GliSODin Skin Nutrients and I will continue to use it as part of my beauty and wellness regimen.
