## ▲ ADVANCED PRE/POST FORMULA

Ideal for clients receiving medical aesthetic procedures, Advanced Pre/Post Formula from **GliSODin Skin Nutrients** is an oral supplement that helps minimize bruising and swelling, promotes a healthy microcirculatory system, supports the immune system, and reduces oxidative stress. Phase One is for clients receiving non-invasive procedures, while Phase Two is for those undergoing cosmetic surgical procedures. (866) 534-5868; [www.glisodinskin.com](http://www.glisodinskin.com).

## ◀ INTENSE COMPLEXION LIGHTENER

Help clients experience a brighter future with **Alyria's** Intense Complexion Lightener. Containing 20 percent of vitamin C, the product is formulated to help even out skintone, fade spots, and promote the appearance of a more radiant complexion. It features a unique silicone base system, which allows the vitamin C to maintain stability. [www.alyria-med.com](http://www.alyria-med.com).

## ▼ DERMATOLOGICAL COMPLETE SUN-SCREEN SPF 50

Recommended for use after chemical peels, micro-dermabrasion, or laser treatments, Dermatological Complete Sunscreen SPF 50 by **mesoestetic** not only protects against sunburn caused by UVB rays but it also protects against UVA rays. The sunscreen contains a combination of organic ingredients that absorb UV radiation before it penetrates the skin and titanium dioxide that scatters radiation.
